

AJIBOLA AYOMIDE ODEYEMI

Oyo State, Nigeria | +2348058528187 | ajibolayomide@gmail.com | <https://linkedin.com/in/ajibola-odeyemi-6b6502381> | <https://github.com/ajibola-analyst>

PROFESSIONAL SUMMARY

Quantitative Data Analyst with a strong foundation in supporting institutional performance, operational efficiency, and data-informed decision-making. Leveraging over 3 years of experience working with complex datasets, I specialize in translating educational, operational, and clinical data into strategic insights. Highly proficient in advanced SQL, Python, R, and enterprise BI tools (Power BI, Tableau) with hands-on experience building dashboard templates and standardizing analysis deliverables. Drawing from my current role at an educational institution (SQI College of ICT) and a background in rigorous academic research, I excel at collaborating with technical teams and stakeholders to maximize platform adoption and utilize AI-augmented workflows to solve complex challenges.

TECHNICAL SKILLS & EXPERTISE

- **Data Analysis & Programming:** Advanced SQL, Python (Pandas, NumPy, Scikit-Learn), R, Statistical Analysis, Machine Learning Algorithms, Ad Hoc Analysis.
- **Higher Education & Operations Data:** Enrollment & Student Success Analytics, Institutional Performance Management, Financial/Cost Analytics, Process Efficiency Initiatives.
- **Business Intelligence & Reporting:** Power BI, Tableau, Advanced Excel, Dashboard Template Creation, Executive Presentations, Data Warehousing Concepts, Relational Databases.
- **Client Success & Project Management:** Strategic Consulting, Requirements Translation (Business to Technical), Stakeholder Training, Cross-Functional Collaboration, Generative AI for Productivity.

PROFESSIONAL EXPERIENCE

Data & Business Analyst *SQI College of ICT | August 2025 – Present*

- **Educational Data Analytics:** Analyze educational datasets spanning enrollment, student success, and financial metrics to identify trends, patterns, and strategic opportunities for institutional improvement.
- **Dashboard & Reporting Solutions:** Deploy, configure, and maintain interactive dashboard templates using Power BI and advanced SQL, empowering academic leaders to answer strategic and operational questions.

- Requirements Translation & Consulting: Serve as the primary analytical liaison, successfully translating complex business and educational requirements into actionable data pipelines for technical teams.
- AI & Process Efficiency: Leverage AI chat agents and automated scripting tools to augment analytical productivity, streamline existing delivery processes, and accelerate ad hoc analysis.

Quantitative Researcher & Data Analyst *Reproductive Biology and Toxicology Research Laboratory (ReBTReL) | Oct 2024 – Present*

- Affiliation: Oasis of Grace Hospital, Nigeria.
- Advanced Statistical Analysis: Utilize R, Python, and statistical analysis methodologies to evaluate complex, multi-variable datasets, maintaining absolute accuracy and data quality across all extracts.
- Survey & Data Modeling: Design analytical methodologies, conduct statistical analyses, and evaluate massive datasets to identify significant trends, mirroring the rigorous data standards required for institutional research.
- Collaborative Problem Solving: Partner with an interdisciplinary team of clinicians and scientists to interpret findings and translate raw data into clear, actionable recommendations.

Operations & Reporting Data Lead *Multichoice Nigeria | July 2021 – September 2024*

- Data Operations Support: Assisted in leveraging enterprise BI tools and SQL queries to process regional datasets, supporting the assessment of capacity, financial metrics, and operational performance.
- Analytics & Reporting: Supported the preparation of comprehensive data analyses and process efficiency reports, helping senior team members align analytics with strategic organizational goals.
- Project Coordination: Contributed to multiple concurrent reporting initiatives by shadowing senior analysts, ensuring timely and accurate data deliverables that supported measurable business improvements.

ACADEMIC RESEARCH & CLINICAL AFFILIATIONS

Published Researcher (Quantitative Analytics) *Elsevier Journal Publication | 2026*

- Publication: Donepezil enhances the testicular protective effect of metformin in diabetic rats by modulating steroidogenic signaling and Bax/Bcl-2/Caspase-3 pathway. (Steroids, Vol. 228, 109748).
- Impact: Demonstrates elite-level analytical rigor, independent hands-on data manipulation, and the ability to build and evaluate complex predictive models using R for peer-reviewed validation.

Founder & Lead Coordinator, Health Research Writing Group *Independent Academic Collaboration | Present*

- Manage the methodological design, data integrity, and evidence synthesis for five active quantitative research projects, requiring strict cross-functional collaboration and independent project execution.

EDUCATION

Bachelor of Technology (B.Tech) in Physiology Ladoke Akintola University of Technology | 2025

- Degree Class: Second Class Upper
- Academic Focus: Advanced Mathematical Modeling, Statistical Analysis, Risk/Variable Assessment, Quantitative Research Methodologies and Biological Systems.

CERTIFICATIONS

Completed Certifications:

- AI for Data Analysis – Google (March 2026)
- Diploma in Clinical Research Operations – London HeartbeatsZ Academy (UK) (Jan 2026)

Certifications In Progress:

- Microsoft Certified: Power BI Data Analyst Associate – Microsoft
- AWS Cloud Practitioner – Amazon Web Services
- Statistical Analysis with R for Public Health – Imperial College London
- Understanding Research Methods – University of London
